

FRA8 (FRANKFURT)

LOCATION

Weismüllerstraße 36, 60314 Frankfurt

An ideal home for your applications infrastructure

Our FRA8 data centre offers the latest secure, scalable infrastructure especially designed for failsafe, efficient and sustainable operation of mission-critical applications and systems. FRA8 is located next to our existing campus, which is Germany's busiest data centre hub. Interconnectivity, power and security are fully provided. Our Frankfurt data centre campus is also home to the German Internet exchange DE-CIX, connecting 80% of its customers.

Located in the east of Frankfurt, directly at the two main carrier routes the data centre offers a multiple redundant infrastructure to meet all requirements in terms of reliability and performance. The data centre offers redundant power supply and air-conditioning (2N/N+1 configuration) and supports even the most demanding high-density configurations.

Interxion's high-security campus is surrounded by a security fence equipped with the most advanced alarm and monitoring systems. To ensure maximum energy efficiency FRA8 has been designed with the focus on energy-saving, modular architecture with adiabatic cooling and maximum efficiency components as standard.

At a glance

- More than 3,600m² of centrally located newly built and equipped space
- 600 connectivity providers and DE-CIX Internet exchange on campus
- Trained security staff on campus 24x7
- Trained technical staff on campus 24x7
- Advanced fire detection and suppression systems
- ISO/IEC 27001 Information Security Management certified
- ISO 22301 Business Continuity Management certified
- PCI DSS Credit Card Transactions Management certified
- ISO 9001 Quality Management
- Office and storage space available

About Interxion

Interxion (NYSE: INXN) is a leading provider of carrier and cloud-neutral colocation data centre services in Europe, serving a wide range of customers through over 40 data centres in 11 European countries. Interxion's uniformly designed, energy efficient data centres offer customers extensive security and uptime for their mission-critical applications. With over 600 connectivity providers, 21 European Internet exchanges, and most leading cloud and digital media platforms across its footprint, Interxion has created connectivity, cloud, content and finance hubs that foster growing customer communities of interest.

For more information, please visit www.interxion.com

Security

- Trained security staff on-site (24x7)
- Complete data centre area protected by security fence
- Multiple physical security layers including contactless key cards, biometric access system, CCTV, man traps
- 24x7 controlled access
- ISO/IEC 27001 Information Security Management certified
- ISO 22301 Business Continuity Management certified
- PCI Data Security Standard (PCI-DSS) certified
- ISO 9001 Quality Management certified

Data Centre

- 3,600m² of newly built and equipped space
- Conveniently located – 20 mins by car from Frankfurt airport and a few minutes' walk from the nearest public transport
- Modular and redundant set up of fault-tolerant infrastructure
- Dedicated antenna space available
- Trained technical staff on campus 24x7.

Interconnection

- Dual-entry, redundant fibre connections as well as high performance connections to all other Interxion data centres in Frankfurt
- Access to over 600 connectivity providers
- Connection point for 80% of the customers of DE-CIX Internet exchange (DE-CIX Core Switches hosted on Interxion campus)
- Redundant Meet-Me-Rooms
- SLA-based Cross Connects available to all Interxion customers in Frankfurt.

Power

- 2N UPS redundancy
- N+1 generator backup with SLA on refuelling
- 60 hrs diesel capacity with SLA
- Up to 99,999% availability SLA
- High-density power configurations of up to 30kW per cabinet
- Full range of AC and DC output currents.

Controlled Environment

- Advanced smoke detection systems in every customer room (VESDA)
- Argon gas fire suppression system
- Fire separation walls (F90/F120)

- SLAs on temperature and humidity in line with ASHRAE recommendations
- Minimum N+1 CRAC redundancy per room
- Redundant cold water supplies
- Entire facility infrastructure monitored 24x7 (chiller, CRAC, fire panels, generator, UPS etc.)

Services

- Colocation: Cabinets, private and shared area Cages, and Private Rooms
- Hands and Eyes: 24x7 installation and maintenance
- Extendable to over 40 data centres across Europe via a single service contract
- Meeting rooms and office space available
- Staging area / storage space.

Energy efficiency and sustainability

- Renewable energy in the power mix
- Phased modular architecture optimizes Power Usage Effectiveness (PUE)
- Data centres operated to the highest energy efficiency standards
- Adiabatic cooling, strict separation of warm and cold air flows.

Customer Support

- ISO 22301 Certification – British Standards Institution (BSI) standard for Business Continuity Management.
- ISO/IEC 27001 – accredited European Customer Support Centre (ECSC) provides support in 11 countries to the same rigorous standards
- 24x7 facility and service monitoring
- Multilingual response (German, English, French, Spanish).
